EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas C. Lagaly on 05/11/04.

The application has been amended as follows:

The claims:

Claim 6: line 1, delete "5" and insert -- 1 --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Note that the art rejections over Harayama et al (US 4,721,643) have been overcome by the present amendment. Harayama fails to disclose the unfoamed layer comprising a gas barrier. Further the art rejections over Park et al (US 5,180,751) in view of Maurice (US 4,851,286) have been overcome by the present arguments. The combination of Park and Maurice arrives at the multilayer product having two polypropylene foam sheets having different densities. This is not the same as two different polypropylene resins having different flexural modulus as claimed (see page 7 of the 03/08/04 amendment).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
